searchlight

2020 Collection

When my parents started their business in 1945, I'm sure they never imagined that it would still be thriving 75 years later. But, having started with just two employees, Searchlight has gone from strength to strength, and today we have over 160 loyal staff, many of whom have been with us for more than 20 years.

In all those years, our passion for producing beautiful, quality products has remained at the heart of everything we do. As a result, we have been the first UK company to create many innovative products and lighting trends. While it's nice to reflect, we remain a forward-thinking company.

Pioneers in decorative lighting, Searchlight has always strived to be ahead of the curve. Having built our modern high bay Distribution Centre in 2002, today, our international customers have the option of UK warehouse supply or FOB direct supply from all our global factories. As a result, many of the world's largest retailers put their faith in Searchlight products.

A world leader in the provision of technologically advanced, creative and value-driven decorative lighting, our award-winning designers bring over 400 new, inspiring products to market each year. This approach to innovation ensures that Searchlight remains fully aligned to the latest home fashion trends and influences. We boast multiple channels and brands, including Searchlight, Illuma, Project as well as OEM and ODM.

It's not just about what we do; it's also how we do it. Strong values of respect, integrity, honesty, flexibility, reliability, and hard work are as essential to us today as they have ever been, and we remain committed to unsurpassed standards of customer service.

As our business reaches its 75th year, the Searchlight family would like to thank the UK lighting industry and all our loyal customers for their support. We look forward to providing you with the most beautiful and inspiring decorative lighting, for many more years to come.

 W MAX 33 → W 7 LUMEN 400-500	 W MAX 50 → W 10 LUMEN 600-800

Colour temperature & Brightness

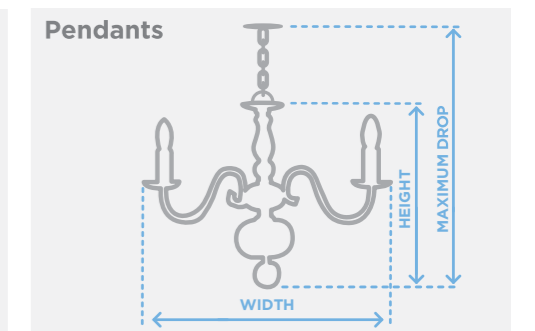

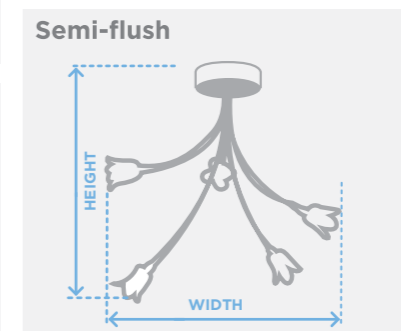

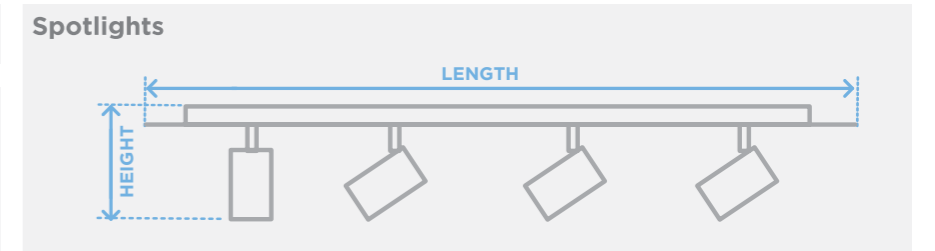

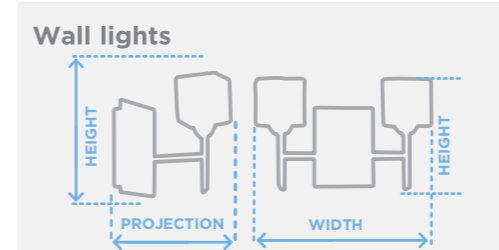

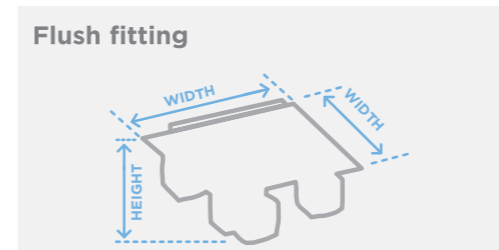

It is important to think about your light source when buying your lamps. LED light source is measured by brightness and colour temperature which dictates how cool or warm the light is. As an example, a spot light is normally much brighter in comparison to the light given by a candle light.

Below is an example of the light sources. All of the LED light sources quoted in our catalogue are within a tolerance of +/- 10%.

All Searchlight products are sold excluding lamps with the exception of IP rated products which are sold including lamps (Refer to price list for additional lamp information)

Warm white 3000K	Cool white 4000K

Measuring fittings

Feature icons

- Dimmable**
The fitting can be dimmed using a suitable dimmer.
- Easy Fit**
The fitting requires no electrical wiring.
- Remote Control**
The fitting is operated and supplied with a remote control.

- Motion Sensor**
The fitting has a built in motion sensor.
- Switched**
The fitting is controlled by a rocker switch.
- Illuminated Switch**
The fitting is controlled by a illuminated switch.
- Adjustable Arms**
Flexible fittings for maximum convenience.

- Three Stage Touch**
Low, medium and high.
- Paintable**
The fitting can be painted to suit any decor.
- Convertible**
The fitting can be converted from pendant to flush.
- Guarantee**
The finish is guaranteed for three years, except within five miles of the coastline. **Outdoor lighting only**

Crystal glass chandelier cleaner

For best results always use Crystal Cleaner. Code P21 (Sold as a pack of 12)

Any typographical, clerical or other error or omission in any sales literature, quotation, price list, acceptance of offer, invoice or other document or information issued by the company shall be subject to correction without any liability on the part of the company. Goods supplied may vary in detail from the illustrations, measurements and descriptions set out in the company's sales literature, which are approximate and for guidance only and will not form part of the contract. Colour finishes will be maintained as accurately as possible but matching cannot be guaranteed. All terminology used in the company's sales literature is subject to these conditions that as understood by general usage in the trade. For full terms and conditions of sale consult your distributor.
