

Table lamp

## SONORA – R54026132

incl. 1x SMD, W · 1x 0lm,

- **Switch**
- **Dusk sensor**
- **Rechargeable battery operated**
- **IP44**
- **Solar**
- **Not dimmable**

If you need a flexible and ideal light for your home and garden, but do not have a fixed power connection, solar lights are the right choice. The SONORA solar lamp has the shape of a lantern and provides beautiful and atmospheric light accents, e.g. on a garden table or as a decorative element in the living room. Due to the integrated twilight sensor, the luminaire switches on automatically when it gets dark and switches off when it gets bright. The additional protection class IP44 protects the solar light from splashing water, which makes it easy to use outdoors. The handle included in the scope of delivery offers you the option of using the SONORA alternatively as a wall lamp. The modern lamp is made of black matt metal and sets decorative accents indoors and outdoors with the white plastic candle. In addition, the luminaire features modern LED technology, which is characterised by high light quality and energy efficiency. Compared to conventional halogen lamps, up to 80% of energy costs can be saved. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.

### Material construction

Metal - Black mat

### Product dimensions

Height: 20cm  
Diameter: 14cm  
Weight: 0,375kg

### Technical data

Light source: SMD – LED  
Color rendering (CRI): > 80 CRI  
  
operating voltage: 230V ~ 50Hz  
Protection grade: 3  
IP classification: IP44
